new file.** This step creates a new canvas on which you can build your image. If you're new to
Photoshop, don't worry about the steps just yet. You'll tackle them in Chapter 3. 3. **On the File
menu, choose New.** The New Document dialog box opens, as shown in Figure 1-1. 4. **In the Name
box, type a name for your file.** Make sure that the AutoSave box is set to Off. These settings
prevent your work from being saved when you leave the program or close it. FIGURE 1-1: The New
Document dialog box. 5. **In the Width box, type the desired width (in inches) of the image.** You
can enter the width in pixels or as an exact number of inches. The Width box also tells Photoshop
what aspect ratio the image should use, which is very helpful if you want to design your image for a
print or Web-based publication. You can see the aspect

Q: How do I query multiple rows where one of the rows is not null? I have an sql table that has the following structure: PERSON(P_ID INTEGER NOT NULL, LAST_NAME VARCHAR(50)) I want to run a query that looks like this: SELECT * FROM PERSON WHERE (P_ID = 10 AND LAST_NAME IS NOT NULL) OR (P_ID = 5 AND LAST_NAME IS NULL) However, when I try to run the query the where clause is ignored. How can I run this type of query? A: try SELECT * FROM PERSON WHERE P_ID = 10 OR LAST_NAME IS NOT NULL OR P_ID = 5 AND LAST_NAME IS NULL Chad May is the owner of Florida Chip-based Tipple Tire Repair. He's been in the tire business for almost 10 years. In his career he has seen a spike and a downturn in the industry as well as some over saturation in certain areas. He has seen so many improvements in the car repair business that he thought it was time to share them with all of us. Florida Car Repair is home to America's most experienced and professional automotive technicians. You can always count on Florida Car Repair to provide top-quality repairs at a fair price. Our professional technicians are committed to taking the time to understand your car and make sure that we fix the right problem. Q: Is it possible to use 'Upload' API with Sparkfun Arduino Wire library? I need to upload an executable to a chip using Sparkfun Arduino Wire library I don't know whether it is supported or not. If not, how can I create my own library that uses curl or other things to upload the program? A: It is not possible. File upload is not supported, they have only upload by HTTP protocol. Engine tests are a part of the process of acquiring an Engineering College diploma and as far as the selection is concerned, are carried out to examine the skills of engineers. Engineering tests are also helpful in picking the ideal course for the future. They are the brain teasers which are to be cleared within a specified time. Engineering tests, also known as aptitude tests, essay tests or all-round tests, are carried out to examine the skills of engineers. It is a very important part of the process of acquisition of an engineering college degree. The engineering tests are classified into the following three types: Written tests Mental tests Traditions-based tests Let us look at the categories in detail. Engineering Tests: A Brief Written Engineering Tests (WET) These are conducted mostly for the use of higher institutions to select its students. They are a test of the applicants in their field of specialization. These are usually carried out in a series of subjects, covering the following aspects: general knowledge – covering topics like Science, Maths, History, etc. instrumental skills – topics like shorthand, accountancy, etc. The questions in the written tests will be carried out on the basis of multiple choice in a single test or on the basis of essays and answers written in a test paper. The test papers will have a certain number of questions with relevant marking patterns. These tests are single test papers and if there is a negative result in a test, the candidate will not be allowed to proceed further. The time permitted for the examination will vary according to the institutions. Mental Tests (Mentrex) These are known as classical, IQ, etc tests. They are conducted to test the speed of reaction, logic and reasoning skill of the candidates. The
